Instructions for Repairing iPads

Students who break their iPads are required to go to an Apple Store (NOT a third party repair store)

iPads are covered by AppleCare warranty. If they are repaired at third party locations, the iPad will have their warranty voided.

Steps:

1. The Apple Store will provide the student with a brand new iPad based on the serial number of the iPad.

2. The Apple Store will charge the student $49.99 for the first 2 instances of damage on their iPad. A third incident will be a full charge

3. The student must then bring the new iPad to the Technology Office to gain access to the WiFi
